

I live in an area where there is no local radio and the nearest city is 25 miles away in the hills. xm radio is the only uninterrupted radio signal available to me and I pay for the privilege of listening. The National Association of Broadcasters has nothing to do with my listening pleasure and should not be able to dictate to me what I choose to hear. I urge the FCC to reject the NAB petition #04-160 and allow me to tune into instant traffic and weather.

Sincerely,  
James D. Pendleton
